

Next Generation Patient Engagement

The state of the sta

Transforming Healthcare
Through Patient Engagement

Improve patient satisfaction and outcomes
Enable patients to engage with their care givers
Reduce cost and streamline administrative tasks
Manage appointments and preventive care
Engage patients prior to arriving to the hospital
Increase patient retention and loyalty
Differentiate your brand and service
Extend patient relationships beyond hospital walls
Increase reimbursement via better HCAHPS

A universal patient engagement app that supports patients throughout their medical journey

Approve appointments Send reminders with push notifications Reduce no shows

Patients search nearby hospitals and clinics, Request medical appointments

Send registration forms for patients to complete and e-sign
